COV. THOMAS OF COLORADO

Delivers an Eloquent Address on the Political Issues of the Day.

Macks the Trusts as Iniquitous and pangerous-Changes and Improvements in Stake Academey.

On Saturday evening a good sized audience gathered at the Grand Opera house to listen to Governor Charles S. Thomas of Colorado, who delivered a very eloquent speech on some of the leading political issues of the day. There was a large delegation of Salt Lake Democrats, headed by Held's band which came up on the O. S. Line 7:40 p. m. train, to listen to the noted orator.

Previous to the opening of the meet-ing the Ogden brass band, Held's band, and the Drum corps promenaded the streets for about twenty minutes, at-The meeting was called to order by Chairman Conroy at 8:15 p. m., and he introduced as chairman of the evening

Hon. Moses Thatcher, who spoke but s few minutes upon the importance of the coming election, he then introduced as the speaker of the evening Governor Thomas, of Colorado, who was greeted Themas, of Colorado, who was greeted with loud applause. He spoke at length upon monopolies, and combines, and the great amount of damage they are to the great majority of the people, and the benefit to the few. Special ref-erence was made to the Standard Oil company as a combine, and the enor-mous dividends it is paying, Rockefeller just recently admitted having received \$30,000,000 profits out of the \$100,000,000 The speaker referred to the gigantic trusts and how they contol everything and if there is any con-cern that does not just suit them all they have to do is to decide against it and it is doomed. As an illustration of this reference was made to some men owning some Brooklyn Rapid Transit stock who refused to sell it for \$2.25, when it was worth \$3.85. A monopoly concern wanted to buy this stock at the reduced figure, they just informed a Boston bank to ruin this concern by refusing to hold this stock as collateral, and informed its customers to that effect, and the stock fell off, the owners had to have money and were glad to dispose of their stock at \$2,25. The speaker was greeted with hearty epplause all through his speech, and at the close a vote of thanks was tendered the gentleman for his able address. He departed Saturday evening on the 10:20 train for Butte, Mont.

WEBER STAKE ACADEMY.

Changes and Improvements in Various Departments. Many changes and improvements

have been made in the Weber Stake Academy the present season. As we step into the principal's office we see a great change. The room has been cleaned and re-papered; a new desk has been placed there, and some very beautiful pictures have been added to the decorations of the wall. In one large frame may be seen the photos of the members of the board of education.

In the preparatory department, ad-joining the office, may be seen a beautiful painting by Carl Anderson. The scene is taken from Waterfall canyon. Many beautiful decorations have been added to that room this year.

Stepping across the hall into the physical apparatus room, we at once notice a new case, filled with physical apparatus, for which the sum of about the apparatus may be seen a Winhurst electric machine, an electric magnet, an incline plane with roller, a small electric motor, a magneto-electric ma-chine, a small model of steam engine, two leyden jars, on galvanometer, mechanical barometer, one wheatstone bridge, a specific gravity balance, chemical scale, and many other things too numerous to mention.

have also been made to the old case. In the business department, next to the physical apparatus room, we may new book-keeping desks in addition to the ones that were formerly there. A commission department. wholesale house, and commercial bank have also

been placed in that room.
In the small room adjoining the business department, have been placed three new typewriters, also beautiful

The laboratory at the back, has had a general repairing and renovating, and also received additional supplies. Going up stairs into the first class-

room on the right, we may see new pictures and mirror decorations. Among the pictures are those of Dewey, Schley and Sarpson. In the class-room adjoining this one, are two new pictures. The one represents the virgin Mary with the Savior in her arms.
In the art room across the hall, are

many beautiful drawings from the art class. Prof. Leo Fairbanks might well be proud of this room. Last year Venus de Milo was added to the works of art. In the class-room next to the art om, are pictures of the Sait Lake, fanti, and Logan Temples. In the large study hall have been

numerous beautiful pictures, nearly all of which are copies of some of the world's greatest artists. One il-lustrates the death of Beethoven, another the Three Fates. The landing of the Mayflower and the Angelius are al-

This fear of being humbugged can be carried too far, so far, in fact, that many people suffer for years with weak digestion rather than risk a little time and money in faithfully testing the claims made of a preparation so reliable and universally used as Stuart's Dys-

Now Stuart's Dyspepsia Tablets are vastly different in one important respect from ordinary proprietary medi-cines for the reason that they are not a secret patent medicine, no secret is made of their ingredients, but analysis shows them to contain the natural di gestive ferments, pure aseptic pepsin the digestive acids, Golden Scal, bis muth, hydrastis and nux. They are not eathartic, neither do they act pow They are erfully on any organ, but they cure indigestion on the common sense plan of digesting the food eaten thoroughly before it has time to ferment, sour and cause the mischief. This is the only ecret of their success Cathartic pills never have and never

can cure indigestion and stomach troubles because they act entirely on troubles because they act entirely on the bowels, whereas the whole trouble is really in the stomach. Stuart's Dyspepsia Tablets taken af-ter meals digest the food. That is all there is to it. Special Correspondence. Payson, Utah Co., March 19.—Another ecture was given here last Friday evenng under the auspices of the public schools, Prof. Josiah Hickman of the B. Y. Academy of Provo being the speaker. He spoke very eloquently on the necessity of parents giving their children proper education. Much good is resulting from this series of lectures as it is bringing parents into closer touch with the schools.

WANT CENTRAL SCHOOL. Last Saturday the citizens of Payson oted almost unanimously in favor of evying a seven mill tax this year with the understanding that another mills be levied next year and also the year following, to build a large central school at a cost of about \$12,000. The building is to be erected on a sevenicre square in the eastern part of town, which was denoted for school purposes by the city council several years ago. The sentiment now, however, seems to favor bonding the district to get the remaining \$5,000, after this year's taxes are collected, so the building can be completed this summer, and used the next school year, instead of waiting three years for the building.
